Reconstruction Funding

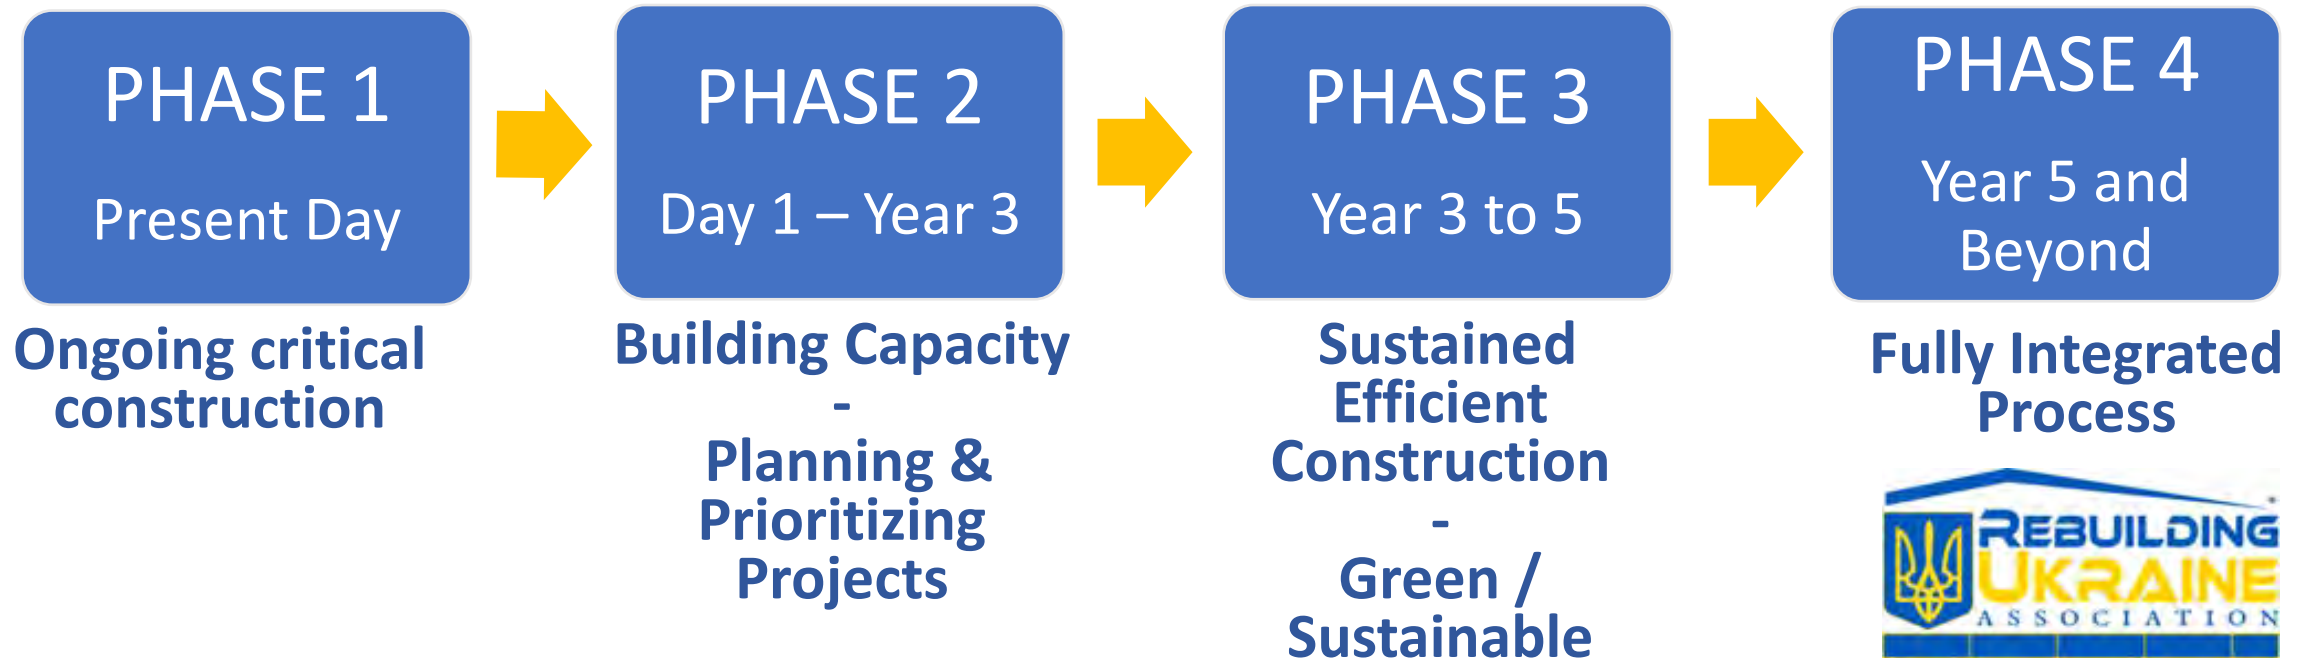

Understanding the Local Market

- Understanding the current monetary and fiscal policies is vital for funding the reconstruction effort in Ukraine, supported by the EU, NATO, the Department of Defense, and the World Bank.
- Knowing these policies and what systems, subcontractors, and materials are available to perform the work is essential to a successful and sustainable outcome.
- RUAI, with its Ukrainian Partners executing needs assessment analysis for our [REUNITE](#) partners.

- Rebuilding Timeline Phases -

*Understanding the Timeline for Post War Reconstruction –
each Phase will require additional skill sets*

When to Enter the Ukraine Market

Strengthen Human Capital thru Education and Training

- What phase do you want to enter?
- EU Companies will have the advantage; it's their backyard.
- US Companies without international experience will find the learning curve very steep. They need to develop a strategy that fits their financial capacity to sustain an **in-country** team for 2 to 3 years.
